Shipbuilding·Offshore

ELECTRIX provides solutions that meet a wide range of requirements in the offshore plant area, including parts, facilities and systems for various ships, from cruise ships to cargo ships to container ships.

Partners

Customers

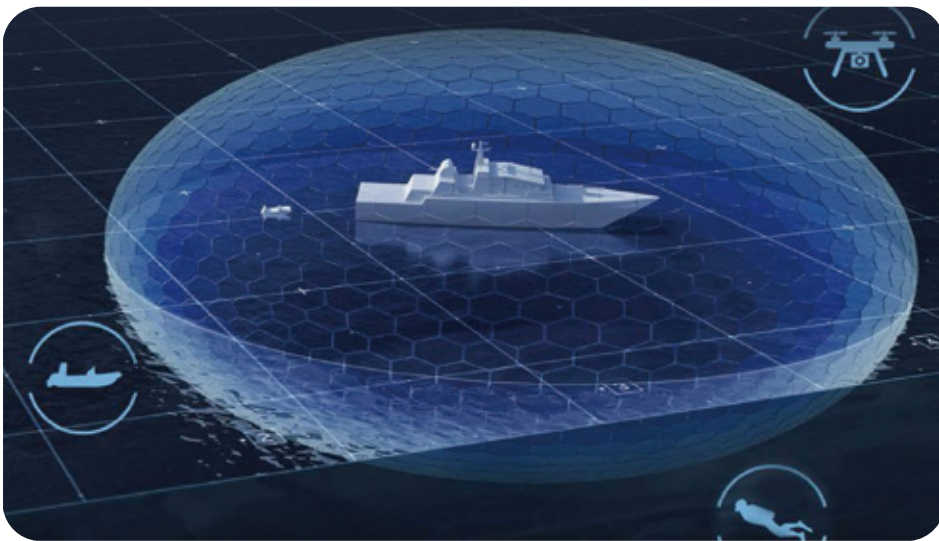

Safety·Security

ELECTRIX provides innovative marine and land-based systems for asset protection and lifesaving.

In addition, we take care of all parts of related fields by pioneering innovative solutions such as industrial safety facilities and accident prevention systems that can completely block accidents that may occur in industrial sites.

Partners

Customers

Military·Defense

ELECTRIX has built an outstanding network to provide a wide range of equipment and systems for the global defense and civil defense industry markets. In particular, we are leading the demanding specifications and standards of the defence industry by supplying customized solutions for maritime and aerospace applications.

Maintenance

We are preparing for sustainable change with various solutions that help supply and store fossil fuels such as oil and natural gas, and new materials for solar energy, starting with the general chemical industry, which is essential for high value-added industries. Renewable for future smart energy systems We respond quickly to areas such as energy so that we can provide smooth service for supply.

Partners

Customers

Plant

Steel · Energy · Refinery · Chemical · Oil & Gas

Electrics covers steel, energy, oil refineries, chemicals and gas.

Supplying Electrical Systems to various plant constructions,

Based on Maintennens, we are contributing to maximizing customer safety and production efficiency. In addition, refinery facilities and storage facilities

that separate crude oil by boiling point range and by participating in the construction of various petrochemical production plants.

We contribute to successfully maximizing the business value of our clients.

Partners

Customers

Fire Detection

The mist fire extinguishing system is required in the current era.

It is an eco-friendly fire extinguishing facility that satisfies safety / environment / ESG management and is a legal fire extinguishing facility that can be applied regardless of fire type. We provide various solutions for voluntary/voluntary facilities, and can also be applied to odor and environmental improvement.

Partners

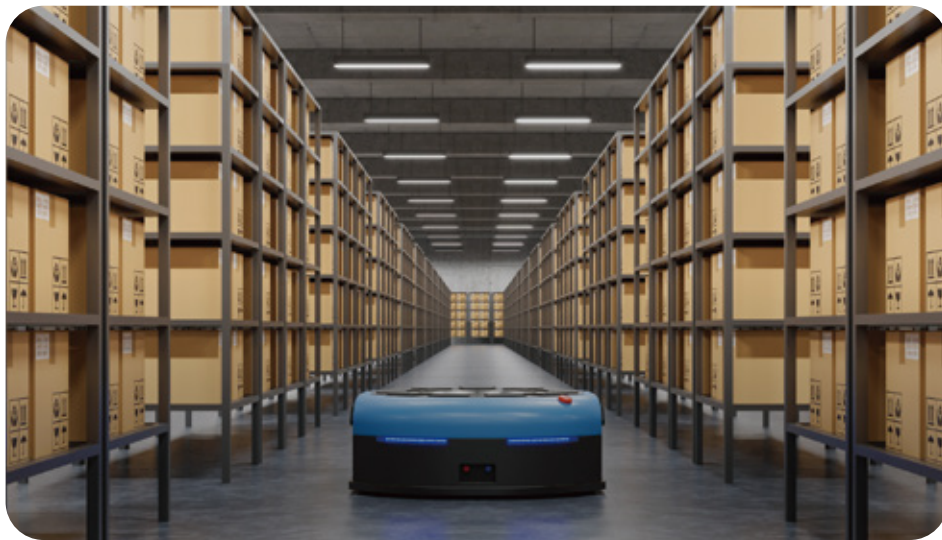

Customers

Robotic Automation

Today, the world is running on critical infrastructure and technology. Airplanes, hospitals, factories, data centers, vehicles. Things like the electric grid are things people depend on every day. ELECTRIX provides smart solutions that can improve people's lives and the environment through reliable, efficient and safe sustainable automation technology.
